And The Premolition Circuit System

MAGNIFYING THE MASTER PATTERN

A UNIFIED ORIGINAL MASTER UNIVERSE

Once the Paradise Trinity, Trinity Ultimate and Trinity Absolute unify into the first level of the Trinity of Trinities, OSZ 5 becomes a Macro Havona as an extension of the original Havona. When the second level of the Trinity of Trinities which includes God the Supreme, God the Ultimate and God the Absolute unify simultaneously with or just prior to the unification of the 7 Absolutes, the original Master Universe (MU) becomes ONE within what is depicted in the MASTER UNIVERSE posters as a semi-transparent eggshell where everything inside is the Father-Infinite and everything outside is the Father-I AM. Still they are ONE, but they are functionally diversified. The Father-Infinite is the portion of the Father-I AM matured to the completion of the Secondary Purpose within the mature Master Universe.

The current Master Universe [1] will one day become a Macro Paradise / Havona system [2] that will act as the central Master Universe and pattern for designing and creating a gigantic Macro Master Universe [3]. This future Macro Master Universe will be composed of countless new Micro Master Universes, each one to be created by a new I AM. These new I AMs will be different from the current I AM in that they will be composite I AMs consisting of scores of perfected personalities that originated from the current Master Universe.

MACRO AND MICRO MASTER UNIVERSES

The concept of new I AMs and new Master Universes follows a repeating Macro / Microcosm pattern. The master pattern of the current MU is destined to repeat itself. A) to form the bigger shape or vessel of the future Macro Master Universe which then, B) becomes populated within, with smaller versions (Micro MUs) of the master pattern, where there is a dual process of expansion (macro) and contraction (micro) occurring. In other words it is the quest to explore infinity in both directions, big and small.

The completed original Master Universe (as a Macro Paradise / Havona system) is located in the center [2]. The expanded or Macro Master Universe pattern is shown in green [3] around the original MU, and the Micro Master Universes are shown in yellow. For clarity only a few of the Micro MUs are shown, but they will ultimately fill the Macro MU pattern the way galaxies populate the current MU.

There's a first ring of Micro MUs around the original MU corresponding to the Superuniverses around Paradise / Havona from the original MU pattern. These will number 7 and will be created first. Then there's a second band of Micro MUs around the first band and so on, following the original pattern of the current MU with a Superuniverse band then 4 exponentially larger bands of Outer Space Zones (OSZ), containing galaxies in the original MU.

In the Macro MU pattern, Micro MUs will be used instead of galaxies, and perfected Quatrain Universes (Absolutum Galaxies) will be used to populate the 33 Macro Havona circuits instead of spheres. This Macro Havona is of additional interest today as it is already begun with the first 12 circuits already accessible by certain Paradise personalities, whereas nothing else of the Macro and Micro MUs yet exist. Havona and Macro Havona, because of their placement at the center and outer edge of the current MU, can also be viewed as Alpha (current universe age) and Omega (mature universe age) Havonas respectively. They will become one and the same in perfection and purpose, but each existing at different levels of reality.

Refer to the THE DESTINY OF THE MASTER UNIVERSE poster for additional information about the Quatrain Universes.

DUPLICATING THE MASTER PATTERN

NEW I AMs

The new I AMs will be twofold. First, they will be comprised of Functional Absolutes where entire Micro MU administrations will be trained within this original MU by the Father-Infinite for service in the Micro MU building adventures. These Functional Absolutes become ONE yet will be made up of MANY personalities. Second, are new Paradise Patterns which were sliced from the original Pre-Thought (Premolition) / Pre-Action (Promotion) spherical master pattern of the Father-I AM (Pre-Thought Sphere).

The Functional Absolutes (Micro MU Administrations unified into ONE being) once created and perfected by the Father-Infinite will be combined with the new Paradise Patterns of the Father-I AM thereby forming new composite I AMs. These new I AMs will be Subsequent Thought or Cause, because the original uncaused-cause is the First Thought / Cause of this original master pattern MU. This new Subsequent Thought / Cause will then be launched by the Father-I AM in the Infinity through the Secondary Premolition Circuits (one circuit for each Micro MU) as He is the pre-cause initiator of all Subsequent Thoughts / Causes.

The Micro MUs to come will not follow the same pattern as this original MU. Each is a unique and individual MU building adventure which differs not only in the material construction as laid out in each new Paradise Pattern, but they differ in spiritual construction as laid out in each Functional Absolute within the Subsequent Thought. These Subsequent Thoughts are infinite in number and follow different mathematical sequences. There exists a common thread that runs throughout not only each individual MU, but within the totality of all combined MU infinities: One equals one $1 = 1$

Each begins with ALPHA = ONE and ends with OMEGA = ONE. The Father-I AM envelops everything. This original MU goes 1, 3, 7, Many, 7, 3, 1. However, future Macro / Micro MUs may be sequenced in entirely different ways because the patterns that make up these Subsequent Thoughts were each sliced at an infinite number of angles from the original pre-Thought sphere. Just as each Master Universe Paradise Pattern is sized the same, each new I AM will be co-equal. The Pre-Will of the Father-I AM is tethered to the center of each Master Universe Paradise Pattern to form a Premolition Circuit. Refer to the THE ORIGIN OF THE MASTER UNIVERSE, the Glossary of Terms in the sidebar for a definition of Premolition Circuit. It is through this Premolition Circuit that all future MUs will be initiated and powered and it is also how one may travel back to the Father-I AM and between the infinite number of MUs just like one does use the various forms of gravity circuits now.
