The Trinity System

A TRINITY FOR EVERY CREATIVE PURPOSE

The Trinity system of the current Master Universe is presently composed of:

1) THE PARADISE TRINITY

The Eternal and Infinite existential Paradise Trinity eternally located at the centre of the stationary Isle of Paradise. Composed of the Universal Father, the Eternal Son and the Infinite Spirit. This trinity is stationary. This Trinity has infinite overcontrol of all creation, past, present and future.

2) THE TRINITY SUPREME

A subfunction of the Paradise Trinity dealing only with the Supreme and Grand Universe in space and time. When the Paradise Trinity functions specifically in relation to Supreme values it can be referred to as the Trinity Supreme. This is when the Paradise Trinity deals specifically with the experiential evolutionary issues of the evolving Grand Universe.

3) THE TRINITY ULTIMATE

The subinfinite Trinity Ultimate. The first experiential trinity. This trinity is mobile. It is composed of the 28,011 Architects of the Master Universe, the Master Creator Sons, and the Supreme Being.

The Trinity system of the future Micro and Macro Master Universes will be composed of:

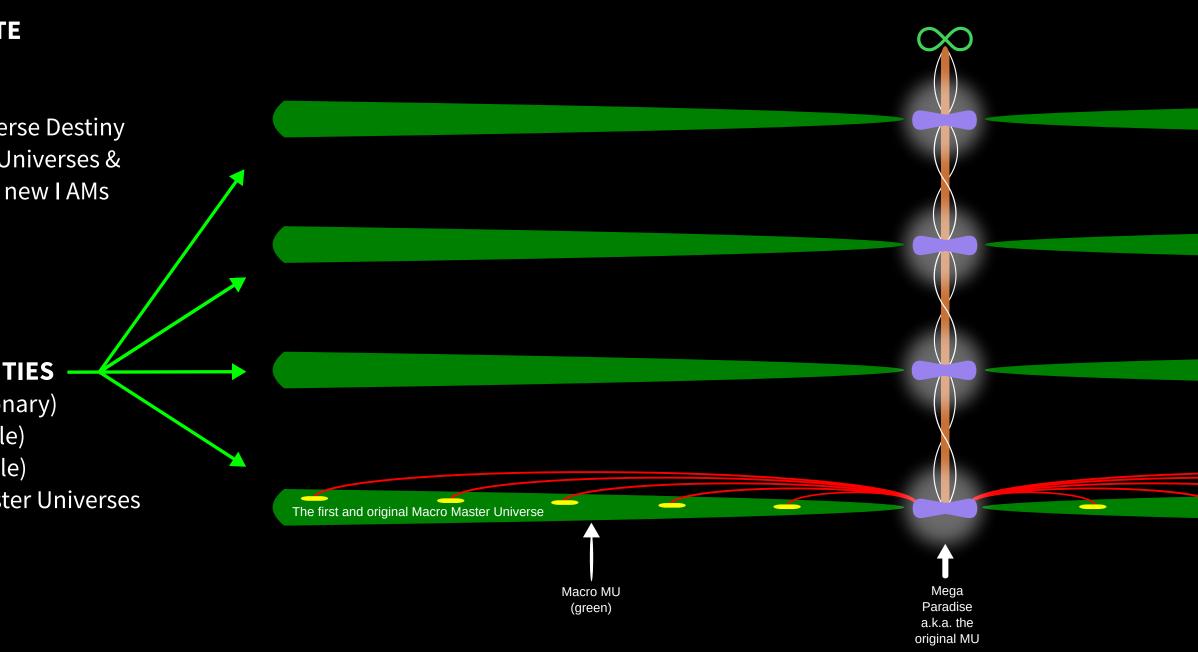

1) THE TRINITY ABSOLUTE

The second experiential trinity, composed of God the Supreme, God the Ultimate, and the unrevealed Consummator of Universe Destiny. This trinity is mobile.

2) THE TRINITY OF TRINITIES

Once the two experiential trinities (Ultimate and Absolute) are completed they will join the Paradise Trinity to form a stupendous Trinity of Trinities. This trinity will be part stationary and part mobile.
